- Conducted thorough testing and debugging to ensure high-quality deliverables, showcasing attention to detail.

Education

Master of Computer Application || Nov 2020

Bharati Vidyapeeth Deemed University

Bachelor of Computer Application || May 2018

Tilak Maharashtra Vidyapeeth

Projects

1.HomeShop Application   Nov 2020 - Jan 2023

It was a CRM project where customers data from shopping till delivery has been stored In this we were having different brands according to the brands requirement we have to change the UI and its functionality my role was to design the changes in UI, write the table structure for databse and write API if required and integrate it in React application using axios
Skills: *Dotnet core, ReactJs, SQL, Support*

2.HealthCare Dashboard   Feb 2022 - July 2022

The project was for the hospital domain, there was a particular hospital called Motherhood, and the dashboard stored the patient data. I was the owner of this project and it was a ReactJS application where API was written in DotNet core and through Store procedure we fetched data from a database. In this project, patients earn points through which they get some benefits
Skills: *Dotnet core, ReactJs, SQL, Support in Backend*

Projects

3.IIFL

Oct 2022

So IIFL was a finance project and it was based on ASP.Net core MVC my role in this project was to support and for that, we have a different ASP.Net core project for API. We have to use that API data integrate it into the MVC application and deploy it to Azure using the CI/CD pipeline

Skills: *Asp.net Core MVC, SQL, Support*

4.SuperTenant UI

Sep 2022 - Nov 2022

This project is made for database changes through UI means if we have multiple brands as we called it as Tenant and if I want to make changes to a particular tenant or we have to download database schema or logs many more we can do all this through SuperTenant UI and it is linked to Home Shop Application

Skills: *Dotnet core, ReactJs, SQL, Support*
